

Zhang San

Shanghai, China | +86-138-0000-0000 | zhangsan@example.com

Summary

M.S. student in Data Science with two data-analytics internships. Fluent in the full SQL/Python analysis workflow, from metric definition and data preparation to insight delivery. Seeking roles in business/data analytics.

Education

M.S. in Data Science

Sep 2025 - Jun 2027 (expected)

Linjiang University, Shanghai

- Coursework: Statistical Learning, Data Mining, Data Visualization, Experimental Design
- Thesis: churn early-warning model on user behavior sequences (AUC 0.83)

B.S. in Statistics

Sep 2021 - Jun 2025

Jiangcheng University, Wuhan

- GPA 3.6 / 4.0; First-Class University Scholarship (2023, 2024)

Experience

Data Analyst Intern, Yuntu Tech (e-commerce)

Mar 2026 - Aug 2026

- Built a 12-metric weekly reporting framework (GMV, conversion, retention); automated SQL pipelines cut report preparation from 4 hours to 30 minutes.
- Designed and powered 3 A/B tests; a coupon-redesign experiment lifted order conversion by 1.8 pp ($p < 0.05$).

Research Assistant (Analytics), Baize Consulting

Jun 2025 - Sep 2025

- Cleaned and cross-analyzed 2,000+ survey responses (pandas); authored the data chapter of a 40-page industry report.

Projects

Bike-sharing Demand Forecasting (course project)

Oct 2025 - Jan 2026

- Gradient-boosted-tree model over 100K trip records; 5-fold CV MAE 2.1 vs. 3.4 baseline; feature-engineering code released on GitHub.

Skills

Data: SQL (window functions, CTEs); Python (pandas, scikit-learn, matplotlib); Tableau; Excel (pivot tables)

Languages: Chinese (native); English (CET-6, working proficiency)
